PETITIONS TO ST. GERARD MAJELLA

Penelope, San Jose: My husband and I drove down to your church on a pilgrimage to St. Gerard this past May asking him to bless us to conceive and have a child after I had miscarried. Unfortunately, I still have not been able to conceive. Please St. Gerard hear our special intention.

Judith, Philippines: I have difficulty getting pregnant. Please pray for me and Paul to have a baby soon.

Brian & Catherine: Massachusetts: that we may conceive and give birth to our first child. May that child be healthy and filled with grace.

Barb: Ohio: Please pray for me and my unborn child. My second child was born with a very rare birth defect and now I am pregnant (7 weeks) with a third and am scared that this child will also have a birth defect. Because of this previous defect they will be running more tests on me that could lead to a miscarriage although it's only about a 1% chance. I know God has a plan but I am fearful. Please pray for us and the health and well being of my unborn child. I pray that this and any other syndrome will pass him or her by through the mercy and graces of our Lord and the intercession of St. Gerard and St Jude.

Tips for choosing safe toys for kids

Millions of toys are out there, and hundreds of new ones hit the stores each year. Toys are supposed to be fun and are an important part of any child's development. But each year, scores of kids are treated in hospital emergency departments for toy-related injuries. Here are some general guidelines to keep in mind when toy-shopping: Toys made of fabric should be labeled as flame resistant or flame retardant. Stuffed toys should be washable. Painted toys should be covered with lead-free paint. Art materials should say nontoxic. Crayons and paints should say ASTM D-4236 on the package, which means that they've been evaluated by the American Society for Testing and Materials. For more information, www.kidshealth.org.

¿SABÍA USTED? Consejos para elegir juguetes seguros para los niños

Existen millones de juguetes en nuestra sociedad y cientos de juguetes nuevos llegan a las tiendas cada año. Los juguetes son una parte importante del desarrollo de cualquier niño. Pero cada año, decenas de niños son tratados en las salas de emergencia de hospitales por lesiones relacionadas con juguetes. Aquí hay algunos ejemplos generales a tener en cuenta al comprar juguetes: Juguetes de tela deben ser etiquetados como resistentes al fuego. Los juguetes de peluche deben ser lavables. Juguetes que estén pintados deben de ser cubiertos con pintura sin plomo. Materiales de arte no deben ser tóxicos. Los paquetes de lápices de colores y pinturas deben de decir ASTM D-4236, lo que significa que han sido evaluados por la Sociedad Americana para Pruebas y Materiales.
